SALT LAKE. Nov. 4.—Well-informed political circles close to the senate leaders declare that even should President-elect Harding offse. Senator Reed Smoot the appointment as secretary of the treasury department he would decline to accept inasmuch as he is now the second ranking member of both the finance and appropriations committees of the senate. It is believed that with Senator Smoot's reliant to the senate if will be but a short time before the burden of the work of both committees will fall upon the Uah man.

SPRY MENTIONED.

In connection with the discussion of the next secretary of the interior the name of former Governor William Spry is mentioned prominently. Even though it is held to be improbable that Can would be given upon cables mentioned provident that Governor Spry might be named as commissioner of the general land office.

Monarch Metal Weather

Strips Reduce Cost

of Fuel

Many of the most prominent Ogden families have solved the reduction of fuel problem by equipping their doors and windows with Monarch metal weather arips.

Persons auffering from catarrhal deaf ness, or who are growing hard of hearing and have head noises will be glad to know that this distressing afficiation can usually be auccessfully treated at home by an internual medicine that in many instances has effected complete relief after other treatments have falled. Sufferers who could scarcely hear have been their hearing restored to such an extent that the tick of a watch was plainly audible seven or eight inches away from either ear. Therefore, if you know of someone who is troubled with head noises or catarrhal deafness, cut out this for mula and hand it to them and you may have been the means of saving some poor sufferer perhaps from total deafness. The prescription can be prepared at home and its made as follows:

Secure from your druggist 1 oz. Parmint (double strength.) Take this home and add to it 4 min of hot water and a little granulated sugar; stir until dissolved Take one tablespoonful four times aday.

a day.

Parmint is used in this way not only to reduce by tonic action the inflamma tion and swelling in the Eustachian Tubes, and thus to equalize the air pressure on the dram, but to correct any excess of secretions in the middle ear, and the results it gives are nearly slaways quick and effective.

Every person who has catarrh in any form, or distressing rumbiling hissing sounds in their ears, should give this recipied at rial.—Advertisement.
